The Seed Library is a free program committed to increasing our ability to feed ourselves wholesome food by offering seeds and education. Through the time-honored tradition of seed saving we celebrate biodiversity, nurture locally adapted plant varieties, and foster community resilience, self-reliance and a culture of sharing.

We encourage all Seed Library members to learn basic seed-saving techniques. We encourage that beginning seed savers grow and return seeds labelled "easy" in the first year. If you are unable to save your own seed, please consider donating replacement packets of fresh, commercially grown, open-pollinated (non-hybrid, non-GMO) seed to keep our library stocked. Returned seed will allow us to keep the library well stocked.
